## Core Features for Schools

### Digital Business Card

A single card for your school that shares all essential information in one place. Parents can instantly access contact details, location, WhatsApp, and website—while strengthening your school's digital identity and brand presence.

### School Website

A clean, mobile-friendly website that clearly presents your school's profile, facilities, academics, and contact details so parents can easily understand and trust your institution.

### Admission Module

A dedicated section that clearly explains your school's admission process. Parents can view eligibility criteria, required documents, timelines, and enquiry options without confusion or repeated phone calls.

### School Fees

A clear and transparent way to display fee structure so parents can understand costs before contacting the school visits, & experiencing hassle free payments

## Helpful Tools & Support

### School Listing

Ensures your school appears where parents search online. Your school becomes easily discoverable on search platforms, helping parents find accurate information without relying on third-party sources.

### Flipbook

A digital version of your school brochure. It showcases facilities, achievements, activities, curriculum, and campus highlights in a simple, scroll-friendly format that works on mobile and desktop.

### Worksite

A digital version of your school brochure. It showcases facilities, achievements, activities, curriculum, and campus highlights in a simple, scroll-friendly format that works on mobile and desktop.
